JCI Colombia Senate Bulletin November 2023

Message President JCI Colombia Senate.-

Dear friends, JCI Senators,

The emotions experienced at our JCI Colombia Convention in Cucuta have given us a significant boost in the days to come.

In the month of November, our Local Councils of JCI Senators from the Caribbean, Central East and South West regions, as well as the members of the Board of Directors and Program Directors, continue with their senatorial activities, giving shine and quality to our National Senate.

The JCI World Congress took place in Zurich, Switzerland, in which the representation of the JCI Colombia President Daniel Pachon, the JCI World VP and JCI Senator Ana Karina Carrillo and the elected JCI World VP Grace Carrillo stood out. The JCI Senates of the Americas and the Caribbean were led by ASAC President Víctor Garcia during the joint Meeting of JCI Senators Associations, who previously sent a report on the activities of the JCI Senates assigned to ASAC, including actions of the JCI Colombia Senate in the present year.

The period for which we were elected is ending, and during this period the management reports are being prepared for the current year for ASAC, JCI Colombia and the JCI Colombia Senate, so that they can serve as input for future teams. This task allows us to remember beautiful moments, satisfaction with the results of our efforts, added to an enormous commitment to fulfill what was offered at the time of the election and what was proposed in the Action Plan.

We receive the month of December with joy, nostalgia for the friends and family who left in 2023 and accompany us from heaven, plus the desire to share in the end-of-year festivities and renew our feelings of brotherhood.

Wish you a nice celebration with family and friends, day of candles, Merry Christmas and New Year's Eve, take good care of yourselves.

Your President Friend.

Sen. 70291 Alex Mejia Villalobos
President Senate JCI Colombia 2023
